

NEHSA's History

NEHSA was founded in 1972 as a non-profit organization run by and for persons with disabilities who wanted to enjoy active and independent lives through participation in sports.

In 1994, we expanded our winter program to include ski instruction for developmentally disabled persons. Today our program's goals are to encourage positive attitudes, social opportunities and personal growth through the challenges that participation in outdoor sports and recreation offers. NEHSA has a full time winter program and now offers year round activities.

Anyone Can Learn to Ski

NEHSA offers adaptive ski and snowboard lessons to people of all ages and all disabilities. At [Mount Sunapee Resort](#), where our homebase and winter program resides, skiers participate in either a stand up or sit-down program, some people try both. Among our stand-up skiers are amputees, persons who have recovered from polio or strokes, skiers with cerebral palsy, blind skiers, deaf skiers, and persons with developmental disabilities. Participants in our sit-down program may include persons with spina bifida, multiple sclerosis, paraplegic and quadriplegic.

NEHSA's Mission Statement

NEHSA bears witness to the triumph of the human spirit by helping people with disabilities and their families enrich their lives through adaptive sports, recreation and social activities.

SPONSORS ARE:

Family and Friends, Colleagues, Local Businesses, Corporations, Community Groups, Students, just about anyone
